

EQUO 1706 FINE DINING

Menu

WELCOME

ENJOY WITH ALL SENSES

You will experience true hospitality and sophisticated culinary delights with us at the EQUO 1706.

Our offer in the restaurant is based on regional products. Here, the craft is in the foreground, because much is made under the guidance of the chef Matthias Gächter himself and is therefore "homemade". The preparation therefore takes a little more time - it's worth it to wait!

Spoil yourself with culinary delights and look forward to an eclectic wine list with classics from Switzerland as well as famous top wines

Our service team will serve you with a lot of cordiality and commitment.

We wish you a good appetite!

Your EQUO 1706-Team
